

Acey's story by Leanne Shead

Acey of base or 'Acey Boy' was an addition to our family to keep our other dog company. At seven weeks old, I found him on Gumtree and fell in love from minute I saw him. Once I found out he was also born on the same day as our eldest son, we knew he was meant to be ours.

Acey is our little human dog as he seriously understands us and everyone falls in love with him. His reputation for escaping and exploring the neighbourhood precedes him. We often find him scratching the front door when he is ready to come home.

While his character traits resemble that of 'Wile Coyote', he has the speed and agility of the 'Road Runner'. Our own little security alarm; no one would get into the house without him letting us know. His

favourite person is our middle boy Benje and together they are two peas in a pod.

Albie's story by Leanne Shead

Short for albino, we saved this little white fur ball from the RSPCA in Yagoona, Sydney when he was 11 months old. His previous owner was an elderly lady who had passed away and Albie was found alone in the house. After a few months of love and rehabilitation, he was ready for adoption.

Formerly known as 'Prince, Albie reminds us of Falkor from the Neverending Story....the kids often flap his ears and sing the theme song. Albie really dislikes birds and takes a few minutes to warm to new faces. But give him your lap and he would snuggle and cuddle for hours.

Albie will turn 6 in January and has adjusted well to his FNQ transition.
