

### **Bundy's story by Linda Mair**

Bundy - (Brown Shih Tzu x Poodle) Male 5yo

There has never been a dull moment since this courageous little dog came to live with us. He retrieves the paper, dances on his hind legs and performs a myriad of agility exercises. He is a super efficient watchdog and is one of my most crucial team members of the education and training process within my business. He is a genuine ambassador for all small dogs and is a shining example of the capabilities of small dogs, so many of which are often misunderstood and denied the opportunity to shine.

### **Elly's story by Linda Mair**

Elly - (Blue Merle Australian Shepherd) Female 3yo

This dog was supposed to be part of my team. She came to me as a two year old dog and has elevated herself to the leading role for my children's education programs and my "4 Paws on the Inside" prison dogs program at Lotus Glen Correctional Facility. Her endearing temperament and adorable features ensure she is revered wherever she goes. This dog has given confidence to nervous children and softened the hearts of some of the most hardened prisoners. She works tirelessly in my training and rehabilitation programs within Canine Training School. "Elly" is one of those special dogs who enters a room and changes the lives of everyone she meets.

### **Racey's story by Linda Mair**

Racey - (Black/White Border Collie x) Female 10yo  
This dog helped to mend my broken heart after losing my canine soul-mate of 16 years. She is my calm and quiet education matron. Her temperament is so stable that she forms the basis of my dogs "pack" and is the guiding light for my two younger dogs. She does a lot of the quiet work behind the scenes with Canine Training School now; she continues to be a valued representative for the training principles of my business. She is the most adorable dog to own and is a treasured member of our family.

### **Canine Training School**

Educate the Owner ~ Marvel at the Dog

At Canine Training School we are committed to helping all dog owners have a more enjoyable and fulfilling relationship with their canine companions. Our classes are designed to suit all ages and focus on basic obedience and correct socialising techniques. Understanding canine behaviour is our passion and this is one of the most crucial components of all of our training programs. We offer education programs for our local community and work closely with our local refuges and rescue organisations.

“Creating a balanced and harmonious lifestyle for every owner and their dog”.
