

Jax's Story by Kaitlin Crawford-Thornton

Right before Christmas 2014, our then one year old bull Arab, Jax, was taken from our yard. With determination and all the social media and all external resources possible, we found him. He was found in Innisfail, by a lovely family that saw him wondering the streets. After they put his 'found dog' picture on Innisfail *Buy, Swap & Sell*, a man and his wife contacted me to say they thought they seen Jax from my post on Gumtree. And it was! He was gone three days and it was the worst three days of my life.

Not every dog finds their way home. We feel for the families who don't find their dogs. My family would like to send our love to them. We understand how they miss their lost dogs so terribly. And we want to thank all those who helped us in our search and finally brought Jax home.

Love from Jax's family.
