

Pinchie's story by Leone Cobham

Pinchie came to us as a foster dog. He was used as a breeding dog but when they get to a certain age they are not needed any more. He was very timid and certainly petrified of humans. When we took him out in public he would pull away from any people way before we even came close to them.

Then he met Jordyn. His life changed forever. He would sit beside her and take comfort in her cuddles. He put all of his trust into an 8 year old girl and she taught him that people were friendly not harmful.

He went back to the vet for a little while as our life got a little crazy but no-one gave him a chance so he came back to us. Jordyn and Pinchie reconnected straight away. She couldn't bear to lose him again. So he has become part of our family.

Pinchie has been with us for a little over 3 years now and has come so far that he will run up to strangers and have a quick sniff before bolting back to be right by Jordyn's side again!! He loves belly scratches, snuggling up with his brother Sprocket and walks along the Esplanade. We have been blessed to give him a loving home.
